AARR 01.1 GENERAL

The AA Road Racing Championship will be run under the authority of the AA FMNs.

All FIM Europe Alpe Adria Road Racing Championship events will be held under the jurisdiction of the FIM (for technical rules, where to apply), FIM Europe (for road racing rules and for technical rules, where to apply), the respective national sporting codes, these regulations and the supplementary regulations of the event in question. The present regulation is accepted as the only for Road Racing in the framework of the FIM Europe Alpe Adria Championships 2015, and countersigned by representatives of the participating and/or organising FMN(R)s. Member FMN's of the AAMU are requested to avoid a clash of date between AAC events and other Road Racing events. The member FMN's of the AAMU should try to synchronize their national championships with the calendar of the AAMU in the following way:

The AA RR Championships are „European Open“ Championships (see also art. classification)

The organiser of an AA RR Championship event has the right to include the additional subtitle: "EUROPEAN CHAMPIONSHIP EVENT FOR STOCK 250cc 4T" into the title of his event.

The interpretation or modification of these rules is the sole right of the FMNs of the AAMU, represented by their Jury Members during the events (see Art. AARR 01.8).

AARR 01.1.1 AARR Commercials

Alpe Adria RR organisers grant the placing for commercials, provided by AA sponsors along the track.

Two weeks before an event, AA sends a list of possible sponsors and the request of space, **banners must be on place latest until Friday 12:00 a.m.**

General Sponsor: The promotor may make reservation for one commercial per bike for a general sponsor, exceptions can be made only, in case a rider has a written contract with a company engaged in the same business field and a written contract can be presented.

AARR 01.2 MEMBER FEDERATION

Eligible Member federations of the Alpe Adria Motorcycle Union (AAMU) for the FIM Europe AA Road Racing Championship 2015:

ACCR	Autoklub of the Czech Republic
AMZS	Auto Moto Zveza Slovenije
FMI	Federazione Motociclistica Italiana
HMS	Hrvatski Motociklisticki Savez
MAMS	Magyar Motorsport Szovetseg
OeAMTC-OSK	Oesterreichischer Automobil Motorrad und Touring Club
SMF	Slovenska Motocyklova Federacia

AARR 01.2.1 Guest members Federations

Guest federations of Alpe Adria Motorcycle Union (AAMU) for the FIM Europe Alpe Adria Road Racing Championship 2015 are:

BMF	Bulgarian Motorcycle Federation
FRM	Romania Motorcycle Federation
MCC	Moto Association of Serbia
PZM	Polski Zwiazek Motorowy

AARR 01.3 CALENDAR

The calendar of races counting to the Championship will be, in principle, published by not later than 31st December of the preceding year. All events of the AAMU Championship will be entered into the calendar of the **FIM Europe**. The Calendar of the AA RR Championship for year **2015** is:

Number	Date	Circuit	Organisation
AA-RR-01 + 07	15.-17. 05. 2015	Adria RaceWay + Oldtimer	Slovakia Racing
AA-RR-02	29.-31. 05. 2015	Pannoniaring	Slovakia Racing
AA-RR-03 + 08	19.-21. 06. 2015	Rijeka/Grobnik + Oldtimer	Slovakia Racing
AA-RR-04	17.-19. 07. 2015	Most	Slovakia Racing
AA-RR-05	07.-09. 08. 2015	Hungaroring	Slovakia Racing

AA-RR-06	11.-13. 09. 2015	Slovakiaring	Slovakia Racing
AA-RR-09	tba	Rijeka/Grobnik only Oldtimer	MK Kvarner

For contact addresses see last page. The Organiser is responsible for providing the facilities and personnel to ensure the smooth and efficient running of the event.

AARR 01.4 SUPPLEMENTARY REGULATIONS

The details of all events, especially the timetables, will be laid down in the Supplementary Regulations (S.R.). Each organizer must send the S.R. to the AA Secretariat 2 (two) months, and the approved S.R. to all interested Federations at least 45 days before the race, it must be completed in the National and English language. All official documents have to be written at least in English. Any changes of the approved S.R. can only be done by the Jury; all changes to the approved S.R. must be communicated to the riders in writing and at least in English.

Each organizer must provide for at least 5 classes (from classes 1-6, laid down in Art. 8) in the S. R. Required minimum opening hours of the administrative and technical checks: (may be extended):
Friday – from 3.00 to 7.00 p.m. and Saturday – from 8.00 a.m. to the end of the qualifying practice.

AARR 01.5 EVENTS

The Event shall be deemed to commence at the scheduled time for Technical and Sporting Checks and finish after all the races at the expiry of the deadline for the lodging of a protest and the time, at which technical or sporting verifications have been concluded, whichever is the latest.

The race control must remain operative with all equipment in place until the end of the period provided for the lodging of a protest, and all officials and marshals must remain at the circuit available to the Clerk of the Course and the Jury members during that period.

AARR 01.6 CIRCUITS

All circuits must be homologated at least for road racing events by the FIM Europe, for Old Timer and Classic classes an FMN homologation will be accepted.

AARR 01.7 ADDITIONAL COMPETITION

During an Alpe Adria Road Racing Championship event, organisers can organize other races, but they may not alter the events schedule. All practices and races for the Alpe Adria Road Racing Championship must be organized according to these regulations.

AARR 01.8 THE JURY

The jury consists of 3 different bodies, the Delegates (FMN Delegates, one per AA member, and permanent AA Delegates i. e. Technical Delegate), the Race Direction and the AA Event Jury.

All participating FMN's may be represented by an FMN Delegate with all rights as laid down in the FIM Europe Sporting Code in its current version.

The organizers of the events arrange 1 double room for two nights for these Jury members of each AAMU-FMN, officially nominated at least 15 days before the event by the FMN and for the permanent AA Technical and AA Press Delegate (only those are to be paid by the organiser). Delegates living more than 400 km from the race-track in question, get an arrangement of 3 nights.

The Race Direction:

The Race Direction is composed of the AA Event Delegate (not being a member of the FMNR), the AA Road Racing Championship Promoter's representative and the Clerk of the Course.

The meetings of the Race Direction are chaired by the AA Delegate. They take place at any time required during an event, at least before the first official practice and at the end of every competition day.

The AA Delegate and the Clerk of the Course are voting members (for both an FIM/FIM-Europe licence valid for their function is mandatory). In case of a tie, the AA Delegate has a casting vote.

If it deems necessary, the Race Direction is entitled to invite all relevant officials of the organiser into these meetings (Technical Steward, Chief Medical Officer, Timekeeper, Environmental Steward...).

FMN Delegates, whose riders, teams or officials are directly affected by decisions as described as follows, must mandatorily be notified of such meetings in time. They are given the possibility to assist their riders, teams or officials.

Duties of the Race Direction:

- a) To organise all necessary hearings and find and publish all decisions conc. all possibly lodged protests during the whole event.
 - b) To sanction all infringements of the AARRR (including the technical rules) within the limits set by the Sporting Code of the relevant FMNR against riders, team staff, officials and all other persons involved in any function in the event in question.
 - c) To provide those persons sanctioned by any action resulting of duties mentioned under art. a and b above with the correct legal information conc. the further procedure in written form.
- An appeal against a decision of the Race Direction must be addressed to the AA Event Jury. It must be submitted within 30 minutes after the notification of this decision and be accompanied by a fee as laid down in art. 01.09.

The AA Event Jury:

The AA Event Jury is composed by the FMNR Jury Member, the AA Jury President (not being a member of the event FMNR), for these Jury Members an FIM/FIM-Europe licence valid for their function is mandatory, and a third Jury Member (FMNR Licence). This third member must be chosen out of the delegates, not being in any national linkage to the case in question.

The AA Event Jury will hear any appeal lodged against decisions of the Race Direction. The AA Event Jury will meet at any time required during the event, the meetings are chaired by the AA Jury President. Each member has one vote, in case of a tie, the AA Jury President has a casting vote. The AA Event Jury must finally decide about all appeals lodged against decisions of the Race Direction, at the time of the last jury meeting at the latest. All decisions must be published and communicated to everybody directly concerned.

An Appeal against decisions of the AA Event Jury is possible. It must be addressed to the FIM Europe Disciplinary Commission and fulfil the formal requirements of the FIM Europe Disciplinary and Arbitration Code in its current version. The AA Jury President is obliged to send all the results and the reports of the event to the Alpe-Adria

Secretariat within 3 days, all signed by the Clerk of the Course and the AA Jury President himself.

AARR 01.09 PROTEST & APPEALS

The protest fee is 150,00 €; the fee for an appeal against a decision of the Race Direction should not exceed 50% of the amount as foreseen for an appeal in the national sporting code of the FMNR. The fee for an appeal against a decision of the AA Event Jury follows the FIM Europe fees (see FIM Europe Disciplinary and Arbitration Code in its current version).

The Organizer has to send all protest and appeal fees withheld to **the AAMU** at its disposal. Fees for pit lane speeding must be paid to the **AAMU** at his disposal.

The deposits in case of dismantling and reassembling a machine following a protest are as follows:
 € 350,-- for a 2-stroke engine (material included), € 600,-- for a 4-stroke engine (material included). These amounts are paid to the team that presented a bike in conformity with the Alpe Adria Technical Rules or repaid to the protester.

All requests for fuel control following a protest must be accompanied by a deposit of € 1.000,-- paid to the **Jury**-(in case of supplementary controls).

Any new requests for control must be presented to the FIM Europe within 5 days of the reception date of the results of the preceding control notified in conformity with article 5.6 of the FIM Europe Disciplinary and Arbitration Code and pay a deposit of € 1.000,--.

After the last control:

- the winning party will have its deposit reimbursed.
- the losing party will have to pay the costs of all the controls carried out after deduction of deposits, which it has already paid.

AARR 01.10 ADDITIONAL OFFICIALS OF AN AARR EVENT

The Technical Delegate – without voting right*

The Chief Medical Officer– without voting right

The Environmental Steward, if foreseen so by the FMNR– without voting right

The Secretary of the Jury – without voting right

The Chief of Timekeeping, holding a national timekeeping licence at least.

The Press Delegate – without voting right

* Holders of at least a valid **FIM/FIM Europe** licence for the position in question.

AARR 01.11 ACCEPTED RIDERS

Riders may participate on an AA RR Event with a valid FIM/FIM Europe/FMN licence, a starting permission and the respective insurance of their FMN only.

AARR 01.12 CLASSES, AGE LIMITS AND DISTANCES OF RACES

The classes and age limits will be as follows (The limit for the minimum age starts on the date of the rider's birthday): For **2015** all participating FMN's are requested to accept the age-limits of the FIM Europe for international events (UEM Sporting Code 60.5).

Num	Classes	Minimum Age	Name	Category	Min/Km	Max/km
1	125 cc	12 years	125SP	SPORT PRODUCTION	30	60
2	125 cc./ Moto3	13 years	125GP / Moto3	GRAND PRIX	35	60
3	SStk 600	14 years	SStk 600	SUPERSTOCK 600	40	80
4	SSp + Moto2	15 years	SSP / Moto2	SUPER SPORT / Moto2	40	80
5	SStk 1000	16 years	SStk 1000	SUPERSTOCK 1000	40	80
6	SBK	17 years	SBK	SUPERBIKE	50	80
7	up to 250cc up to 500cc	25 years	OLD TIMER	OLD TIMER	25	35
8	Over 500 cc	25 years	OLD TIMER	OLD TIMER over 500	25	35
09 10 11 12	Up to 500cc Up to 750cc Legend Open Special	25 years	CLASSIC	CLASSIC - Legend - Open	25	35

The practices and races of class **FIME Ch. Stock 250 4T, and AA classes** 125 GP/Moto3 and 125 Sp, class SStk 600 and SSp, class SStk 1000 and SBK may be held together (classes with equal engine capacities). The classes 7 - 12 are promotional classes, no organiser has the duty to organise them. A rider can participate during an event in one AA class only with the same motorcycle.

AARR 01.13 ENTRIES

Entries must be received by the organiser in written form or by electronically devices at least 15 days before the event (first closing date).

The entry fees paid before the first closing day or during the administrative checks at the latest (see Entry Form) are:

Class	Pre-sale (before the event closing day)	On-site payment, or after the event closing day
125Sp/GP+Moto3	€ 180,00	€ 210,00
SStk,SSp,SBK	€ 290,00	€ 330,00
Oldtimer,Classic	€ 150,00	€ 170,00
For a second class	+ € 80,00	+ € 80,00

All these fees include free practices on Friday, all national insurances and the AA charges.

All organizers pay 20,00 € to the AAMU Secretariat per rider having passed the scrutineering in classes foreseen by the AAMU Championship. Unexcused absence of a rider results automatically into a fine of € 200,

payable to the AAMU. The organizer concerned sends a list of unexcused absent riders to the FMN's whose rider(s) were absent. The FMN's inform their riders, who are obliged to pay the amount directly to the bank account of the AAMU.

AARR 01.14 STARTING NUMBERS

For the dimension of the numbers and the numbers colours see AA Technical Rules 2015 (Point AARR 0.4 and his appendix). To all entered riders the starting numbers will be allocated at the beginning of the first event (for the first 10 riders on the basis of the previous year's classification), all riders will keep these starting numbers at each event of the Alpe Adria Championship 2015.

A class is considered as eligible, when at least 10 riders pass the scrutineering, if this number will not be reached, the riders of this class will be incorporated in a class equal to the value of their performance (this decision has to be done by the Jury on proposal of the Clerk of the Course and has to be communicated immediately to the riders).

AARR 01.15 TIMETABLES

The supplementary regulations of all events have to be sent to the AARRC at least 60 days before the event and must contain a timetable. Any change to this timetable must be approved by the AARRC or the Alpe Adria Event Jury of the event in question; all changes must be communicated to all riders/teams in written form immediately.

All events contain two free practices on Friday at least. During the weekend, 2 qualifications practices are held, the SR is composed in cooperation between organiser and promotor.

Timetable for events:

A compulsory briefing will be held for all riders on Friday evening; the exact times will be given in the timetables of the events. Special attention will be given to those riders who participate for the first time in the Alpe Adria RR Championship. Failure to attend this briefing in full will result in exclusion from the event. A waiver may be granted by the event Jury President. The event takes place in principle according to the following standard schedule; the fixed schedule will be announced no later than 4 weeks before the first event.

The qualifying and races for support classes except World Championship classes must be held/organised before or after all scheduled AA classes.

Friday, 1st day

Registration, Administrative checks 07:00 am up to 05:00 pm

Technical checks 08:00 am up to 05:00 pm

Two untimed free Practice of 20 minutes

One timed free practice (official Practice) of 25 minutes

Saturday, 2nd day

Registration, Technical control 07:00 to 10:00 am

One Qualifying Practice of minimum 25 minutes

First Race: The Grid will be based on the fastest times recorded by the riders of Qualifying 1

Sunday, 3rd day

Second Qualifying Practice of 25 minimum minutes

Second Race: The Grid will be based on the fastest times recorded by the riders of qualifying 1&2.

For Old Timer and Classic Classes:

Minimum one Free Practice of 20 minutes, two Qualifying Practice of 20 minutes, one Warm up and

two Race per event. The Grid will be based on the fastest times recorded by the riders of qualifying 1&2, both for race1 and for race 2.

AARR 01.16 TECHNICAL CONTROL – MEDICAL CONTROL – DOPING CONTROL

AARR 01.16.1 Technical control

All motorcycles and riders' helmets, including their designs, should be checked by the Technical Stewards prior to first participation in practice on safety aspects, according to the published schedule in Supplementary

Regulations. Teams or Riders may present more than one motorcycle per rider for Technical Control which will be specially identified by the Technical Controllers. Teams or Riders who do not comply with the schedule for technical controls will not be allowed to take part in the event. The procedure for Technical Control is described in the AA RR Technical Regulations.

AARR 01.16.2 Medical control

The procedure for Medical Control is described in the FIM Medical Code.

AARR 01.16.3 Doping control

Any rider to be tested for doping control must report to the doping control room in the Medical Centre with sufficient identification within 30 minutes of notification. One associate may accompany the rider.

AARR 01.17 PRACTICES

Practice Sessions (warm-up inclusive) Riders will commence practice from the pit lane when the green light is displayed at the exit of the pit lane.

The duration of practice will commence from the illumination of the green light for about two minutes, then it will be changed to a blue flashing light. A visible board or count-down will be shown in the pit lane and/or start/finish line to indicate the minutes of practice remaining.

The end of practice will be indicated by the waving of a chequered flag at which time the pit exit will be closed. A rider's time will continue to be recorded until he passes the finish line after the allotted time has elapsed. After the chequered flag riders may complete one additional lap prior to entering the pits. It is not permitted to pass the chequered flag more than once.

If a practice is interrupted due to an incident or any other reason, then a red flag will be displayed at the start line and at all marshals posts. All riders must return slowly to the pit lane. When practice is restarted, the time remaining will be that shown on the count-down device in the pit lane and/or start/finish line at the moment the red flags were displayed.

Riders or mechanics may only start their motorcycles in the pit lane by pushing in the direction of the circuit or use a starting device

After the official practice has started, the race surface of the circuit should not be washed or brushed except on instruction from the Jury President and the Clerk of the Course in response to a localised change in conditions. If for the timekeeping a transponder system is used, it's the rider's own responsibility to have a good working transponder mounted on his motorcycle. If there is no transponder mounted on his machine he will not be qualified with times in that particular session. If the number of qualified starters not more than the circuit homologation, the jury will decide if he can start on the end of the starting grid.

A rider may practise on more than one motorcycle providing that all such motorcycles have been scrutineered in the name of this rider.

All laps of the riders will be timed.

AARR 01.17.1 Private and Supplementary practices

Supplementary practices, organised on a track, which hosts an Alpe Adria Meeting on the consecutive weekend, must be open to all riders entered in this meeting. They must be organised before the first official Alpe Adria practices. A charge must not exceed € 45, 00 per rider for a practice of 30 minutes minimum. All information concerning these supplementary practices must be mentioned in the SR of the event in question. A change of this rule is only permitted with the approval of the Alpe Adria Road Racing Commission.

AARR 01.17.2 Qualifying practices

To qualify for the race, a rider must achieve a time at least equal to **120%** of the time recorded by the fastest rider of his class in at least one qualifying session **(no application for Oldtimer and Classic)**.

One timed free practice will be scheduled for Friday, if a qualifying practice cannot take place in case of force majeure, the times of the timed free practice can be taken into account. Also riders who have not reached the qualification criteria in a qualifying practice may be allowed to start in a race, if they reached the qualification time in the timed free practice, they will be placed on the grid according to the time they gained in the timed free practice. No application in the Old Timer and Classic Classes.

If a class is split into several practice groups, these groups must be composed of the same number of riders plus or minus one. For the first practice the formation of the groups will be determined by decision/ballot of the Jury.

For the second practice the fastest times of the first practices are taken into account. The fastest rider first, the slowest rider or the riders without time last, if there are any. This total group must be split into smaller groups composed with the same number of riders plus or minus one. Changing between these groups is not allowed.

When all practices have been run under the same conditions, the starting grid will be formed by taking into account the fastest lap-times of all the qualified riders of the total class and the grid will be filled up to the maximum number of starters in conformity with the SR. Under weather conditions which are regarded as not equal by the jury, the following method will be used: When the practices have run under different conditions, an equal number of qualified riders of each group, (rounded off to the nearest figure) on the basis of the best times, will be taken in account. The position on the starting grid will be allocated alternatively between the groups, starting with the best time of the first placed of the fastest group, then the best placed from the second group. Then the best time of the second placed of each group, etc. In case of a tie with regard to the placing and the time, the 2nd best time will be taken in consideration and so on if a tie remains.

AARR 01.17.3 Extra practice in case of weather change

Note: A practice or Warm-up will be defined by the Clerk of the Course as wet when more than 50% of the riders are using tyres other than slicks or when the track is wet during 50% of one of the practice sessions. In both cases, a "WET PRACTICE" board will be shown.

If all practices and the Warm-up have been held in dry conditions, one of the following procedures can be applied, should it rain just before or during the start, or during the race (as far as there is not completed 2/3 or more of the actual race distance):

- After all competing riders have returned to the pit lane, a delay (of 5 minutes) will be signalled. Countdown boards from 5 to 1 minute before the start of the regular start procedure will be shown.
- Maximum 3 (three) sighting laps may be completed. When the first rider has fulfilled two laps, he and all the other riders will be shown the chequered flag.
- At this point, the normal start procedure will continue, i.e. take up the positions on the starting grid, etc.

Note: Should all practices have been held in wet conditions, the above will also apply in case of dry (race) conditions.

AARR 01.17.4 Warm Up (Free practice)

When a qualifying practice on the race day is held, no warm up (free practice) will be held.

AARR 01.17.5 Starting Grid Positions

The pole position, allocated to the faster rider, will be determined during the homologation of the circuit. The Grid will be arranged in the **3-3-3-** or **4-4-4-** configuration "in echelon" (must be written in the SR). Lines will be offset. There will be a distance of 9 metres between each row. The final grid will be published at the latest one hour before the start of each race.

AARR 01.18 RACES

The length of races must be according to the parameters from Art 01.12. The length of a race may only be varied by the International Jury. A visible countdown board will be shown to indicate the number of remaining laps in the race.

AARR 01.19 STARTING PROCEDURE

Approximately 15 Minutes before the Start of the Race - Pit lane exit opens for sighting lap(s). Count-down boards of 5, 4, 3, 2 and 1 minute are shown at the pit exit. Riders may complete more than one sighting lap by passing through the pit lane where they may make adjustments, change machines or refuel.

Approximately 10 minutes before the Start of the Race - Pit lane exit closes.

Riders who do not go on to the grid may start the warm up lap or the race from the pit lane under the instructions of the marshal positioned at the pit lane exit. Riders who encounter a technical problem on the sighting lap may return to the pit lane to make adjustments or to change machines.

When the riders reach the grid after the sighting lap, they must take up their positions and may be attended by up to three persons, one of whom may hold an umbrella. All attendants on the grid must wear a "Pass". Having taken up their grid position, the riders may take off their helmets, except in the case of a restarted race. Officials will display panels, at the side of the track, indicating the row of the grid, to assist riders in locating their grid position.

The Clerk of the Course may, at this stage, declare the race as "wet" or "dry" and will indicate this to the riders on the grid and those who may still be in the pit lane by the display of a board. If no board is displayed

the race will automatically be "dry". Riders on the grid may, at this stage, make adjustments to the machine or change tyres to suit the track conditions. Trolleys are allowed on the grid. Two air blowers are allowed on the grid. Tyre warmers may be used on the grid. No batteries or other electrical supplies are permitted on the grid. Only one generator of a „hand carried“ type and with a maximum capacity of two kilowatt may be used per rider. The noise limit of the generator is 65 dB/A. Starter engines may not be used, except for 4 stroke machines. All adjustments must be completed by the display of the 3 minute board. After this board is displayed, riders who still wish to make adjustments must push their machine to the pit lane and must be clear the grid before the display of the 1 minute board, where they may continue to make adjustments or change machine. Such riders will start the warm up lap or race from the pit lane exit. Refuelling or changing fuel tank on the grid is forbidden.

5 Minutes before the Start of the Warm Up Lap
Display of 5 Minute Board on the grid.

3 Minutes before the Start of the Warm Up Lap
Display of 3 Minute Board on the grid.

Immediately removal of tyre warmers from machines on the grid with maximum 15 seconds tolerance. Infringement of this rule will immediately lead to a ride through penalty.

Generators must be disconnected and removed from the grid as quickly as possible.

Trolleys and air blowers must be removed from the grid as quickly as possible.

At this point, all persons must leave the grid except one mechanic per machine, the person holding the umbrella for the rider, the television crew of the host broadcaster and essential officials.

Riders must put their helmets on.

No person (except essential officials) is allowed to go on the grid at this point.

1 Minute before the Start of the Warm Up Lap
Display of 1 Minute Board on the grid.

At this point, all team personal except the mechanics will leave the grid. The mechanics will, as quickly as possible, assist the rider to push start the machine and must then immediately leave the grid.

30 Seconds before the Start of the Warm Up Lap
Display of 30 Second Board on the grid.

All riders must be in position on the grid with engines running.

No further assistance from mechanics is permitted. Any rider who is unable to start his machine must remove it to the pit lane, under the control of the grid marshals, where he may make further attempts to start it or change machine.

2 Minutes before the Start of the Race

Green flag or national flag waved to start the warm up lap. In the interest of safety, should a rider stall his machine, he may be assisted to restart. If, after a reasonable period, the engine does not start, then the rider will be pushed into the pit lane where his mechanics may provide assistance or where the rider may change machine. The riders will make one lap, at unrestricted speed, followed by a medical car. This car must overtake slower riders. As soon as the riders have passed the pit lane exit, the pit lane exit light will be turned green, and any rider waiting in the pit lane will be permitted to join the warm up lap. Fifteen seconds later, the light will turn red to closing the pit lane exit.

On returning to the grid the riders must take up their positions with the front wheel of their motorcycle close to the line defining the grid position and keep their engines running.

An official will stand at the front of the grid holding up a red flag.

Any rider who arrives back at the grid after the arrival of the medical care must start the race one position behind the last qualified rider on the grid. In case of two or more delayed riders, their positions behind the last qualified rider on the grid will be determined by their qualifying results. Any rider who encounters a problem with his machine on the warm up lap must return to the pit lane and make repairs or change machine. Any rider who stalls his engine on the grid or who has other difficulties must remain on the motorcycle and raise an arm. It is not permitted to attempt to delay the start by any other means.

As a row of the grid is completed, the officials will lower the panels indicating that their row is complete. Panels will not be lowered when a rider in that row has indicated that he has stalled his motorcycle or has other difficulties. When all panels have been lowered and the medical car has completed its lap, an official at

the rear of the grid will wave a green flag. The Starter will then instruct the official at the front of the grid, displaying the red flag, to walk to the side of the track.

A red light will be displayed for between 2 and 5 seconds. When the red light is switched off, the riders may start their race. A medical car with a doctor will follow behind the motorcycles for the whole of the first lap. Any rider who anticipates the start will be required to carry out the ride through Procedure described under article 1.20. Anticipation of the start (jumpstart) is defined by the motorcycle moving forward when the red lights are on. The Race Direction will decide if a penalty will be imposed and must arrange information to the team to be notified of such penalty before the end of the fourth lap **of the race.**

If, after the red light has switched off, a rider stalls his machine, then the start line marshals may assist the rider by pushing him along the track until the engine starts. If, after a reasonable period, the engine does not start, then the rider will be pushed into the pit lane where his mechanics may provide assistance or where the rider may change machine.

After the riders have passed the exit of the pit lane, the official situated at this exit will display a green light to start any riders still in the pit lane.

After the leading rider has passed the finish line at the end of his first lap, no further changes of machines are permitted unless the race is interrupted.

Should there be a problem that might prejudice the safety on the start, then the Starter will display a flashing yellow light and the board "Start Delayed". The marshal with the red flag stays or comes back in front of the grid and a marshal will wave a yellow flag at each row of the starting grid from the signalling platform. The start procedure will be re-commenced at the 1 minute board stage, the riders will complete an additional warm up lap and the race distance will be reduced by one lap. Any rider who, due to his behaviour on the grid is responsible for a "start delayed" will be penalised with one of the following penalties: fine – ride through – disqualification – withdrawal of Championship points.

AARR 01.20 RIDE THROUGH PROCEDURES

During the race, the rider will be requested to ride through the pit lane without stopping at his box. He may then rejoin the race. The rider must respect the speed limit (Art. 1.23.13) in the pit lane. In case of infraction of this speed limit, the ride through procedure will be repeated; in case of a second infraction of this speed limit, the black flag will be shown to the rider. In the event of a restarted race, the above regulation will also apply. In the case of a race interrupted prior to the penalty being enforced, and if there is a second part, the rider will be required to ride through after the start of the second part of the race. In the case of a rider carrying forward a penalty for anticipation of the start, into the second part of a race and subsequently found to have anticipated the second start, the rider will be shown the black flag.

After notification has been made to the team (with a yellow board displaying the riders number in the pit lane), a yellow board (100cm horizontal X 80 cm vertical) displaying the rider's number (black colour) will be shown at the finish line and the information will also be displayed on the time keeping monitors. Failure by the relevant rider to ride through, having been shown the board 3 times, will result in that rider being shown the black flag. In the case where the organisation has been unable to carry out the ride through penalty before the end of the race, the relevant rider will be inflicted with a time penalty of 20 seconds.

AARR 01.21 "WET" AND "DRY" RACES

All races will be categorised as either wet or dry. A board may be displayed on the grid to indicate the status of the race. If no board is displayed, the race is automatically dry. The purpose of this classification is to indicate to riders the consequence of varying climatic conditions during a race.

AARR 01.21.1 DRY RACES

A race classified as dry will be interrupted by the CoC, if he considers that climatic conditions affecting the surface of the track makes it likely that riders will wish to change tyres.

AARR 01.21.2 WET RACES

A race classified as wet, usually commenced in varying or wet conditions, will not be stopped for climatic reasons and riders who wish to change tyres or make adjustment must enter the pits and do so during the actual race. In all cases where the first race is stopped for climatic reasons, then the restart will, automatically, be a "wet" race.

AARR 01.22 BEHAVIOUR DURING PRACTICE AND RACE

1. Riders must obey the flag signals, the light signals, and the boards which convey instructions.

2. Riders must ride in a responsible manner which does not cause danger to other competitors or participants, either on the track or in the pit-lane. Riders must at all times adhere to the provisions of the Sporting Regulation. Any infringement of this rule will be penalised with one of the following penalties: cancellation of lap time(s) - fine - Ride through - disqualification - withdrawal of Championship points - suspension.

3. Riders should use only the track and the pit-lane. However, if a rider accidentally leaves the track then he may rejoin it at the place indicated by the marshals or at a place which does not provide an advantage to him. The marshals may assist the rider in helping him to lift the machine and holding it whilst any repairs or adjustments are made. Any repairs or adjustments along the race track must be made by the rider working alone with absolutely no outside assistance. The marshal may then assist him to re-start the machine. **When riders are accused of having exceeded the track limits during the race, the Race Direction will decide what penalty is to be imposed upon these riders.**

4. If a rider encounters a problem with the machine which will result in his retirement from the race, then he should not attempt to tour at reduced speed to the pits but should pull off the track and park his machine in a safe place as indicated by the marshals.

5. Riders who are returning slowly to the pits during the practice should ensure that they travel as far as possible of the racing line. They must give a signal by raising an arm.

6. Riders may enter the pit-line during the practice and the race to make adjustments to their machines or change tyres. During the race all such work must be carried out in the pit lane on working apron in front of the boxes. Refuelling and changing motorcycle are strictly prohibited after the leading rider has passed the finish line after the first lap of the race.

During the intervals, if races are interrupted, work and refuelling in the pit boxes is permitted.

7. Riders who stop their motorcycle in the pits may be assisted to re-start their motorcycle by the mechanics or a starting device.

8. Riders are not allowed to transport another person on their machine or to be transported by another rider on his machine (exception: Another rider or by another rider after the chequered flag or red flag).

9. Riders must not ride or push their motorcycles in the opposite direction of the circuit, either on the track or in the pit lane, unless doing so under the direction of an Official.

10. No signal of any kind may pass between a moving motorcycle and the rider's Team and someone in the pit lane, pit box or the paddock except for the signal from the time keeping transponder. Onboard or helmet-cameras are not allowed except if requested so by the organizer after control of all relevant devices and their mountings/fixations at the scrutineering

11. Voluntary stopping on the track during practices and races is forbidden.

12. Practice starts are only permitted, when it is safe to do so, at the pit lane exit, before joining the racetrack, or in the cool down lap after the chequered flag and not in the race line.

13. A speed limit of 60 km/h will be enforced in the pit lane at all times during the event. Riders must respect the speed limit from where the sign 60 km/h is placed up to where the sign 60 km/h crossed out is placed. Any rider found to have exceeded the limit during the practice will be subject to a fine of 50,00 € per infringement and must be paid one hour before the start of race at the latest.

Any rider who exceeds the pit lane speed limit during a race (beginning with sighting lap) will be penalised with a ride through. The Clerk of the Course must communicate the offence to the pit of the rider after having received the information from the official in charge.

14. As a general rule, silence in the paddock must be respected during the night between 11:00 p.m. and 07:00 a.m. except local restrictions.

AARR 01.23 ASSISTANCE IN THE PITS

A rider may only receive assistance or have his machine refuelled at his own pit area. He is entitled to the services of three assistants but under no circumstances are these assistants allowed to go beyond the line, which marks out the pit area. Assistants may carry out repairs, adjustments or refuelling. During refuelling, the engine of the machine must be stopped. Any violation of these rules may be penalised with one of the following penalties: fine - Ride through - disqualification - withdrawal of Championship points - suspension.

AARR 01.24 CHANGE OF MOTORCYCLES

During practice, a rider may use a maximum of two motorcycles, providing they have passed the technical controls under the rider's name and with the correct number.

AARR 01.25 INTERRUPTION AND RESTARTING OF A RACE

AARR 01.25.1 Interruption of a race

If the Clerk of the Course decides to interrupt a race or if the race is interrupted after the chequered flag has been displayed, then red flags will be displayed at all marshals' posts and he will switch on, if available, the red lights around the circuit. Riders must immediately slow down and return to the pit lane. **At the time the red flag is displayed, riders who are not actively competing in the race will not be classified. Within 5 minutes after the red flag has been displayed, riders who have not entered the pit lane, pushing or riding on their motorcycle, will not be classified.**

The results will be established as follows:

1) The results will follow the standings taken at the last time, when the leader and all other riders on the same lap as the leader had completed a full lap without the red flag having been presented.

2) If the race is interrupted after the chequered flag had been presented, all the riders having crossed the finish line at the moment of the red flag being displayed or for the riders to whom the chequered flag was shown before the interruption, a partial classification will be established at the end of the last lap of the race.

For all the other riders, a partial classification will be established at the end of the penultimate lap of the race without the red flag being displayed.

3) The complete classification will be established by combining both partial classifications as per lap/time procedure.

If the results calculated show that less than three laps have been completed by the leader of the race, then the race will be null and void and a new race will be run over maximum 2/3 number of laps of the actual race. If it is found impossible to re-start the race, then it will be declared cancelled and the race will not count. The Polposition-Point will be awarded.

If three laps or more have been completed by the leader of the race and all other riders on the same laps as the leader, but less than 2/3 of the actual race distance, rounded down to the nearest whole number of laps (or 2/3 of the actual race duration), than a new race will be re-started according to art. AA RR 01.25.2 B. If it is found impossible to re-start the race, then the results will count and only half points will be awarded.

If the results calculated show that 2/3 of the actual race distance rounded down to the nearest whole number of laps (or 2/3 of the actual race duration) have been completed by the leader of the race and by all other riders on the same lap as the leader, than the race will be deemed to have been completed and full points will be awarded.

If the second heat of a race is stopped by waving the red flag, no third start will be carried out and full points will be allocated to the riders.

AARR 01.25.2 Re-starting a race that has been interrupted

If a race has to be re-started, then it will be done as quickly as possible, consistent with track conditions allowing. As soon as the riders have returned to the pits, the Clerk of the Course will announce a time for the new start procedure to begin which, conditions permitting should not be later than 20 minutes after the initial display of the red flag.

The results of the first race must be available to teams before the second part of a race can be started.

The start procedure will be identical to a normal start with sighting laps, warm up lap etc.

Conditions for the re-started race will be as follows:

In the case of situation described as less than 3 laps completed above:

- A:
- All riders may re-start.
 - Motorcycles may be repaired or changed. Refuelling is permitted.
 - The grid positions will be as for the original race.

In the case of situation described as 3 laps or more and less than two-thirds completed above:

- B:
- Only riders who are classified as finishers in the first race may re-start. (see AARR 01.26 a and b)
 - Motorcycles may be repaired or changed, wheels/tyres may be changed. Only refuelling in the pit lane is permitted.

- c. The number of laps or the duration of the following race will be the number of laps or duration required to accomplish 2/3 of the original race distance with a minimum of 5 laps.
- d. The grid position will be based on the finishing order of the first race.
- e. The final result of the race will be established according to the position and the number of laps of each rider at the time he crossed the finish line at the end of this new race. Provisions of Art. AARR 01.26 will apply.

AARR 01.26 FINISH OF A RACE AND RACE RESULTS

When the leading rider has completed the designated number of laps for the race, he will be shown a chequered flag by an official standing at the finish line, at track level. The chequered flag will continue to be displayed to the subsequent riders. When the chequered flag is shown to the leading rider, no other rider will be permitted to enter the track from the pit lane. As soon as the chequered flag is shown to the leading rider, the red light will be switched on at the pit lane exit and a marshal showing a red flag will stand in the pit lane exit. If a rider(s) closely precedes the leader during the final lap before the finish line, the official will show to the rider(s) and to the leader simultaneously the chequered flag and the Blue flag. That means that the race is finished for the leader while the rider(s) closely preceding the leader has (have) to complete the final lap and take the chequered flag.

In case of a photo-finish between two, or more, riders, the decision shall be taken in favour of the competitor whose front wheel leading edge crosses the plane of the finish line first. In case of ties, the riders concerned will be ranked in the order of the best lap time made during the race.

Should for any reason the end of the race signal be given before the leading motorcycle completes the actual number of laps or duration, the race will be deemed to have finished when the leading motorcycle last crossed the line before the signal was given.

Should the end of race signal be delayed for any reason, the race will be deemed to have finished when it should have finished.

The results will be based on the order in which the riders cross the line and the number of laps completed.

To be counted as a finisher in the race and be included in the results a rider must:

- a - Complete 75% of the race distance.
- b - Cross the finish line on the race track (not in the pit lane) within five minutes of the race winner.

The rider must be in contact with his machine.

The riders placed in the first three positions in the race will be escorted by officials, as quickly as possible, to the podium for the awards ceremony. Participation in the podium ceremony by the first three riders is compulsory.

A new lap record for a circuit can only be established by a rider during a race.

Both for practice and for race, the lap time is the subtraction of the time between two consecutive crossings of the finish line painted on the track.

AARR 01.27 FLAGS AND LIGHTS

AARR 01.27.1 Flags and lights used to provide information

The following dimensions of flags have to be respected:

All flags will be waved!

- National Flag

May be waved at the start line to start the race.

- Green Flag

The track is clear. This flag must be **displayed** at each flag marshal post on the first lap of each practice, during the sighting and the warm up lap. This flag must be shown at the flag marshal post immediately after the incident that requires the use of the yellow flag. When waved by the starter it is the signal to start the Warm Up lap.

- Green Light

This light must be switched on at the pit lane exit to signal the start of each practice and Warm Up session, the sighting lap and the warm up lap.

- Yellow and Red Striped Flag

OIL, water, gravel or another substance is affecting the adhesion of the track. This flag must be **displayed** on at least two flag marshal post before this situation.

- White Flag with diagonal Red Cross

Drops of rain on this section of the track. This flag must be **displayed** at the flag marshal post.

- White Flag with diagonal Red Cross + Yellow and Red Striped Flag Rain on this section of the track. These flags must be shown at the flag marshal post.

- Blue Flag

Displayed at the flag marshal post, this flag indicates to a rider that he is about to be overtaken by a faster rider. The slower rider may not hinder the faster rider. During the practice sessions, the rider concerned must keep his line and slow down gradually to allow the faster rider to pass him. During the race, the rider concerned is about to be lapped. He must allow the following rider(s) to pass him at the earliest opportunity.

When a group of riders are going to be lapped and the blue flag is displayed then no changes of positions within this group of riders may occur until the rider(s) lapping them has (have) passed.

Any infringement of this rule will be penalised with one of the following penalties: fine – disqualification – withdrawal of Championship points.

- White Flag

There is a slow moving car, ambulance or similar vehicle on the track. **Displayed** at two posts before the vehicle and indicates that the rider will encounter the vehicle in the current or next section of the track. It is forbidden for a rider to overtake another rider during the display of the white flag, unless it is a much slower rider and until he passed the vehicle.

Overtaking the slow moving vehicle is permitted.

As soon as such a vehicle stops on the track, the white flags must be maintained and the yellow flags must also be presented.

In principle: If a car must go on the track and this cause danger, the practice or race will be stopped!

- Chequered Black / White Flag

This flag will be waved at the finish line on track level to indicate the finish of race or practice session.

- Chequered Black / White Flag and Blue Flag

The chequered black/white flag will be waved together with the blue flag presented waved at the finish line on track level when a rider(s) precedes closely the leader during the final lap before the finish line.

AARR 01.27.2 Flags and lights which convey Information and Instructions

- Yellow Flag

Shown waved at each row of the starting grid, this flag indicates that the start of the race is delayed.

Indicates danger ahead, on or nearby the track. It must be shown waved on least two marshals post before the danger. The riders must slow down and be prepared to stop. Overtaking is forbidden up until the point where the green flag is shown.

Double yellow flag waved, there is a hazard wholly or partly blocking the track.

Any Infringement of this rule during a practice session will result in the cancellation of the time of the lap during which the infraction occurred and fasters lap(s). In case of infringement of this rule during the race, the rider will be penalised by a drop of positions to be decided by the race direction. If the rider does not fulfil his duties resulting out of this decision within 3 laps after the first indication of this procedure at the finish line, he will be penalised by a ride through procedure. In both cases, further penalties (such as fine – suspension) may also be imposed. If immediately after having overtaken, the rider realises that he did an infraction, he must raise his hand and let pass the rider(s) that he has overtaken. In this case, no penalty will be imposed. During the final inspection lap, this flag must be waved at the exact place where the flag marshal will be positioned during the practices, the warm ups and races.

Yellow flashing lights along the track (if used) give the same instructions.

- Flashing Blue Lights

Will be switched on at the pit lane exit at all time during practices and races. The rider(s) who enter the track may not hinder the rider(s) on the track.

- Red Flag waved and Red Lights

When the race or practice is being interrupted, the red flag will be waved at each flag marshal post and the red lights around the track will be switched on. Riders must return slowly to the pits.

- Red Flag and/or Red Lights motionless (in the pit or on the track)

Rider must stop. They may not pass this flag or light.

When the pit-lane exit is closed, this flag will be shown motionless at the pit-lane exit and the red light will be switched on. Riders are not allowed to exit the pit lane. Any infringement of this rule will be penalised with one of the following penalties: fine – disqualification – withdrawal of Championship points – suspension. The red flag will be shown motionless on the starting grid at the end of the sighting lap and at the end of the warm up lap. The red flag may also be used to close the track. The red lights will be switched on at the start line for between 2 and 5 seconds to start each race.

will not be present on final price giving and their excuses are found to be justified, the prizes may be taken by proxies.

AARR 01.31 INSTRUCTIONS AND COMMUNICATIONS TO COMPETITORS

Instructions may be given by the Clerk of the Course to Teams and/or Riders by means of special circulars in accordance with the Regulations. Circulars will be posted on the official notice board.

All classifications and results of practice and the race, as well as all decisions issued by the officials, will be posted on the official notice board.

Any communication from the Clerk of the Course to a team or rider must be communicated in writing. Similarly, any communication from a team or rider to the Clerk of the Course must also be made in writing.

AARR 01.32 FUEL

In all classes the fuel prescribed is gasoline without lead, based on the FIM / FIM Europe Technical Rules. For the 125 cc classes also see Technical Regulations.

AARR 01.33 SANCTION FOR NON-COMPLIANCE WITH THE FUEL RULES

See article RR01.21 of the FIM Europe Road Racing rules

AARR 01.34 TIMEKEEPING

Riders must accept any type of time keeping system approved by the FIM/FIM Europe

AARR 01.35 PERMANENT ALPE ADRIA TECHNICAL DELEGATE

The AAMU sends to all AA RR events one permanent technical delegate (AATD). This delegate is the coordinator between the national technician members and the Jury. He is responsible for the preparation of all technical documentations and necessary tools with the exception of weighing and sound measuring devices. The names of these both technicians must be laid down in the SRs of the events. The national Chief technician and his staff must work together with the AATD. In case of a dispute, the decision of the AATD will be final. The cost for this permanent technical delegate must be paid by **Slovakiaracing** on the same weekend as he present.

AARR 01.36 PERMANENT ALPE ADRIA PRESS DELEGATE

All AARR events will be attended by a permanent press delegate. For this person, a **Wi-Fi** internet access must be prepared at every circuit, he gets free access to all points of interest as foreseen in the AARR Passes & Paddock Regulations and will work in permanent cooperation with the International Jury.

Zreze 29th November 2014

Janez Pintar, AMZS, President Alpe Adria Road Racing Committee

Martin Hejduk, OAMTC, Vice president Alpe Adria Road Racing Committee

Jazek Molik, PZM, Vice president Alpe Adria Road Racing Committee

Luigi Favarato, FMI, Alpe Adria Road Racing Committee member

Nenad Durovic, HMS, Alpe Adria Road Racing Committee member

Janos Fekete, MAMS, Alpe Adria Road Racing Committee member

Ladislav Snegon, SMF, Alpe Adria Road Racing Committee memb
